· Continuation Sheet (PTOL-303)

Application No.

Continuation of 3. NOTE: The amendments to claim 1 change the scope of the claim and would require further consideration and/or search. Applicant's argument that the added limitations to claim 1 do not present issues that would require further consideration an/or search because the added structural limitations were "inherent" in the claim as previously presented is untenable. Applicant proposes the amendments in an attempt to structurally distinguish applicant's invention over the prior art. Further consideration of the amended claim would be necessary to determine if the claim is now distinguished from the prior art.
